MOSAIC Ward Profile
Molyneux

Introduction

Experian Mosaic is a classification tool used to categorise the population according to the type of neighbourhood in which they live. It is constructed from a range of sources including the Census, consumer behaviour, financial and lifestyle factor data. It is a useful tool for gaining more in-depth insight into lifestyles and behaviour of the population. Mosaic segments the population into 15 Groups (A-O) and 66 Types.

Ward Summary

There are approximately 12,900 residents living in 5,300 households across Molyneux. Over three quarters (82.5%) of the households in Molyneux ward a classified as belonging to just three of the 15 Mosaic Groups:

Mosaic Group	Mosaic Group Description	Molyneux % / Count	Sefton %	Variance on Sefton
E Suburban Stability	Mature suburban owners living settled lives in mid-range housing	33.4% / 1,781	14.1%	19.3%
F Senior Security	Older people with assets who are enjoying a comfortable retirement	26.6% / 1,419	14.6%	12.0%
H Aspiring Homemakers	Younger households settling down in housing priced within their means	22.5% 1,203	10.5%	12.0%

The tope three Mosaic Groups in Molyneux indicate that a majority of households in the ward are owner occupied homes. The age ranges of the residents vary across the groups, (E = 56 - 60, F = 76 - 80 and H = 31 - 35). There is vast differences in the household income of the three groups with E and H having a reasonable income (£40k - £49k) compared to the low income seen in Group F (<£15k). There is a minimal number of younger and working age people in the ward requiring possible intervention or support.

The groups can be further broken-down into more specific categories called types, with just three types making up over a third (40%) of all households in Molyneux:

Mosaic Type	Mosaic Type Description	Molyneux % / Count	Sefton %	Variance on Sefton
E20 Boomerang Boarders	Long-term couples with mid-range incomes whose adult children have returned to the shelter of the family home	15.3% / 815	6.3%	9.0%
H30 Affordable Fringe	Settled families with children owning, modest, 3-bed semis in areas more affordable housing	14.2% / 759	5.8%	8.4%
F23 Bungalow Haven	Senior singles whose reduced incomes are satisfactory in their affordable but pleasant homes	10.5% / 559	4.6%	5.9%

The top three types specify that a high number of households within Molyneux are owner occupied homes, the age ranges are different across the two groups (E20 = 56 - 60, F24 = 71 - 75 and H30 = 41 - 45). Household income across the three types shows variations, with E20and H30 having a reasonable income (£40k - £49k) compared to the low income seen in F23 (<£15k). Types E20 and F23 indicate that residents are likely not to have children, unlike H30 where there is an average of three children per household.

Mosaic Public Sector Data Sources

Experian™
Mosaic Public Sector

Data Sources

A total of 332 data elements have been used to build Mosaic Public Sector. These have been selected as inputs to the classification on the basis of their volume, quality, consistency and sustainability. A further 1500 data elements were used in clustering did not directly affect the solution, but were used as descriptives when evaluating the segmentation.

72 per cent of the information used to build Mosaic Public Sector is sourced from a combination of data that includes Experian's UK ConsumerView Database, which provides consumer demographic information for the UK's 50 million adults and 25 million households. This database is built from an unrivalled variety of privacy-compliant public and Experian proprietary data and statistical models. These include the edited Electoral Roll, Council Tax property valuations, house sale prices, self-reported lifestyle surveys, term time students from HESA, social housing information from NROSH, broadband speed information from OFCOM, and other compiled consumer data.

The remaining 28 per cent of the data are sourced from the 2011 Census which provides highly accurate neighbourhood level information. All of the information used to build Mosaic is continuously updated. This enables Experian to verify and update the classification annually, and the segmentation has been built in such a way that new data can be can be added to provide further insight into the types.

In Numbers

New Mosaic combines unparalleled data resources to deliver our most comprehensive classification ever

49.7m Adults

25.2m Households

1.73m Postcodes

850m+ Source records

450+ Input variables for clustering and interpretation

The Mosaic Family Tree

The Mosaic Family Tree illustrates the major demographic and lifestyle polarities between the Types and Groups, and shows how the Mosaic Types relate to each other.

Mosaic Migration helps to determine the probable location paths of different Mosaic Types and how households might move through the Mosaic Family Tree over time. This is useful for understanding the origin, stability and aspirations of the people within each Mosaic Type.
